

Technical update for judo instructors

Author: Manuel Date: 21 September 2014

On September Saturday 13th and Sunday 14th, the gotha of Umbrian judo met at the Sport Palace of Spello for the annual update of the technical judo instructors. The amazing technic and judo champion Stefano Proietti, who several times achieved European and world medals in the category kata, will represent Italy at the next World Cup in Malaga, which - as an expert in the field of problems linked to youthjudo- held an interesting and innovative lesson on judo to children aged 4 to 11 years. Almost eighty technicians were there, and have appreciated the commitment of the Technic Proietti: words of praise have been spent by the volcanic vice president of industry, Leonardo Perini, and by the Regional Commissioner Technic, M °Giuseppe Fama. The success of the course has pushed the industry executives to offer more sessions with the teacher Stefano Proietti, mainly directed to the aspiring instructors.
